- Time:** 10 minutes
- Preparation:**
- Print out the worksheet and make one copy for every two students
  - Cut on the vertical dotted line between the columns, to make separate one-column work sheets for groups A and B.
- Procedure:**
- Divide the class into two groups, A and B, and give each student the work sheet for his or her group.
  - Explain to group A that they should complete the questions in items 1–5, so as to obtain the given answers, and complete the answers in items 6–10.
  - Explain to group B that they should complete the answers in items 1–5 and complete the questions in items 6–10, so as to obtain the given answers.
  - Students may work together within their groups, but everyone should write.
  - You should circulate and help the slower students, also correct spelling and word order if necessary.
  - When they have all finished writing, they should all stand up, find a partner from the other group and check what they have written. (The students from group A have the questions and answers that group B had to write, and visa-versa.)
